

## City Drive – Handy Drive Speed Drive – Free Drive

**CITY DRIVE TECHNOLOGY** compagny wish to propose « **Route 66** » with theses inventions **HANDY DRIVE, SPEED DRIVE and CITY DRIVE** cutting edge town vehicles designed for travel or to practice a sliding sport in complete safety and without pollution.

Our electric prototypes are very reliable, they can reach a speed from 30 to 40 km/h with an autonomy of 150 km.

They were tested approved for this challenge. These inventions are quite unique and approved by the European community.

To realize this project in 2017, a \$ 200 000 participation would be necessary.
